Table	composition	Contains range dates of stock being in specified index
		Primary Key: gvkey, iid, start_date, index_name

Column	Data_Type	Description
gvkey	INTEGER NOT NULL	Primary company identifier assigned by Compustat
iid	INTEGER NOT NULL	Constituent issue ID. Identifies specific issues (usually equities) for the company. For example if a company has an A and B stock, Compustat will generally show two issues (distinct IIDs) for the single GVKEY.
company_name	TEXT NOT NULL	Company name
symbol	TEXT NOT NULL	Constituent symbol, ticker or code. A number of stocks in the past of index do not exist any more and their tickers are inactive or used by other companies. Compustat uses special symbols for these stocks. For example, the ticker for Dresser Industries is given as "DI." and Chrysler is given as "C.3". Currently the ticker C belongs to Citigroup. Some stocks, like Energy Future Holdings Corp, which was part of the S&P 500 from 1964 until 2007 have no ticker associated with them but have a code (e.g., 0033A). These stocks can be looked up via the Compustat GVKEY value and IID
cusip	TEXT	Nine-character alphanumeric code assigned by the CUSIP Service Bureau to identify various securities
cik	INTEGER	Central Key Index used on the SEC's computer systems to identify corporations and individual people who have filed disclosure with the SEC
start_date	DATE NOT NULL	Date when the stock got in the index
end_date	DATE	Date when the stock left the index. If the end_date is blank that means that as of the last Compustat update that stock is still in the index.
index_name	TEXT	Name of index for which start and end dates are provided
source	INTEGER	Database from which the data was pulled from: 1: Compustat - Capital IQ / North America Daily / Index Constituents 2: Compustat - Capital IQ / North America Daily / Securities Daily 3: CRSP
